

Task Title: Portfolio

[1]Objective:

Designed and developed a responsive personal portfolio website to showcase projects, technical skills, education, and contact information. Built using HTML, CSS, and JavaScript with a modern user interface, smooth navigation, project showcase section, downloadable resume, and direct links to live demos and GitHub repositories. The website is optimized for desktop and mobile devices, providing an engaging user experience and professional online presence.

[2]Project Description:

The portfolio features a modern user interface with responsive design, smooth navigation, interactive sections, and visually appealing layouts. It includes dedicated sections for About, Skills, Projects, Education, and Contact Information, allowing visitors to easily explore the candidate's qualifications and achievements. The website also provides direct access to professional profiles such as GitHub and LinkedIn, along with resume download functionality. The project demonstrates front-end web development skills, UI/UX design principles, and the ability to create a professional online presence suitable for internship applications, job opportunities, and networking purposes.

Key Features:

Professional Hero & Personal Branding Section – Showcases personal introduction, career objectives, profile image, social links, and resume access to create a strong first impression.

Responsive Navigation System – Includes smooth scrolling, section-based navigation, and a mobile-friendly hamburger menu for seamless browsing across all devices.

Project Showcase Portfolio – Displays featured projects with organized layouts, enabling visitors to explore technical skills, development experience, and achievements.

Skills & Technology Highlights – Presents programming languages, web technologies, development tools, and core competencies in an attractive and structured format.

Education & Achievement Timeline – Provides a clear overview of academic qualifications, CGPA, educational milestones, and career progress.

Resume & Professional Networking Integration – Offers direct resume viewing/downloading along with GitHub, LinkedIn, email, and phone connectivity for professional engagement.

Modern Responsive User Interface – Fully optimized for desktop, tablet, and mobile devices with clean layouts, intuitive interactions, and accessibility-focused design.

Premium Visual Experience – Features modern typography, gradients, animations, hover effects, interactive components, and performance-optimized architecture for a professional look and feel.
